

Robert Thomas for Congress **14th Congressional District**

Innovative Projects

Robert Thomas for Congress is focused on creating innovative sources of human energy, renewable energy, and reclamation of existing systems that help to conserve fossil and finite reserves at the same time creating jobs and opportunities through human energy. We plan to improve the quality of life for all who possess human energy local and abroad.

Robert Thomas for Congress 14th Congressional District

Worldwide Disasters

With the growing worldwide disasters such as: hurricanes, floods, snow and ice storms, power grid overloads, water conservation, electrical cars, and cyber security, there is a great need to develop alternative energy projects that can absorb those affected by such disasters and release a tremendous burden off the taxpayers and the government.

Robert Thomas for Congress 14th Congressional District

Major Project

Robert Thomas for Congress is asking businesses, consultants, constituents, and all private individuals to support this platform annually in the development of our regional projects.

Robert Thomas for Congress 14th Congressional District

External Projects

Robert Thomas for Congress will incorporate its external projects into the campaign platform. External projects include: jobs, Intrinsic Wealth, Human Energy, scholarships, decreased local taxes, increased productivity/sale tax, an ownership society, the justice system, recovery treatment centers, poverty and income inequality, prescription drugs, trade and immigration, and school security.
